“As a healthcare professional, I hear firsthand the value of the Volunteer Cancer Drivers Society. Patients tell us daily how special drivers are to them. You are not just a driver, you are a smile when someone has had a rough night. You are a confidant when they have no one else to talk to. You are their cheerleader when they feel like they don’t have anyone else in their corner. Your kind words give them hope that they too, can get through another treatment. This is a journey and you all help make the trip more manageable.” – Cancer clinician
